

:: INCREASED ENERGY

:: EFFECT

PATIENT INFORMATION

- AN EFFICIENT MICROCIRCULATION IMPROVES:**
- >> Blood circulation and blood flow
 - >> Nutrient and oxygen supply
 - >> Removal of metabolic end products and toxins
 - >> Blood circulation relief
 - >> Immunity, decreasing susceptibility to infection
 - >> Regenerative and repair processes
 - >> Falling asleep and sleeping through
 - >> Deacidification of the organism
 - >> Acceleration of healing processes
 - >> Performance
 - >> General well-being
 - >> Ability to concentrate

- HOW CAN THE BEMER TREATMENT IMPACT POSITIVELY ON YOU?**
- >> You will feel better
 - >> Your healing will proceed more quickly
 - >> You will require less medication, if applicable
 - >> Your ability to concentrate will improve
 - >> Your performance will improve
 - >> Your quality of life will improve

0735-071005 // Subject to modifications.

STAY HEALTHY.

>> For regeneration and performance. <<

COMPLEMENTARY APPLICATION IN THE CASE OF:

allergies, arthrosis, arthritis, asthma, impaired circulation, diabetes, skin diseases, circulatory disorders, migraine, pain treatment, metabolism disorders, diseases of the musculoskeletal system, sleep disorders, erectile dysfunction, wound healing ...

Protect your health.

:: THE REVOLUTIONARY BEMER THERAPY FOR PREVENTION AND CONVALESCENCE.

What is important to us.

The focus of our work is on caring for **your health and well-being**. As a result we are constantly striving to offer you optimal medical care. This also includes being permanently informed about the **current state** of research in medical sciences as well as new and successfully tested therapies and treatments. Besides ensuring a high degree of effectiveness, we are primarily concerned in providing medical care with as few as possible, and ideally no side effects. Furthermore, short-term effects are not important to us, but rather **sustainable, enduring health and performance**.

CIRCULATION

The basis for health and performance!

Good circulation of the organism is a prerequisite for maintaining or regenerating good health and for the healing and regenerative processes in the human body. Because the supply of nutrients and oxygen, and the removal of metabolic end products and toxins takes place via the blood.

Correct supply and removal of cells equals health.

Approximately 74% of circulation takes place in the smallest blood vessels. Within this so-called “microcirculation”, the arterioles, capillaries and venules transport the blood. Natural rhythmic changes in their profiles (vasomotion) cause the blood to be distributed in the gigantic network of the capillary area. In a healthy person, vasomotion takes place approximately 3 times per minute; in ill or medically compromised persons only once per 10 minutes. This overly low “timing” must thus be stimulated or normalised by way of a type of “microvessel pacemaker”.

BEMER THERAPY

Protect your health.
Support your healing.

The BEMER therapy is currently one of the most **effective and modern treatment concepts** in the area of prevention and support of recovery processes. It is a physical therapy that stimulates restricted or dysfunctional microcirculation in a targeted manner, thereby representing a significant basis for restoring and maintaining health. According to the latest research results, the current BEMER device generation functions with a globally unique signal configuration as well as treatment programmes for **day and night sleep phases** based on this configuration.

YOUR BEMER TREATMENT OPTIONS

>> Outpatient treatment at your doctor’s practice on the basis of “individual health services”

BEFORE

AFTER

IMPROVED MICROCIRCULATION :: After only two minutes of BEMER treatment a significant improvement can be seen in the blood flow.

Only 2 x 8 minutes daily,
no side effects at all!
So easy to use.

BEMER therapy -
for you too.

You may ask yourself how you too could benefit from the BEMER therapy. Contact us; our practice team will be glad to advise you. BEMER devices are not only being used in numerous practices and clinics, they are also licensed for home use. As the BEMER treatment activates the entire organism and its natural regulation mechanisms, BEMER is not only used for supporting recovery processes independent of indications, but also promotes physical and mental performance during leisure time, sport and on the job.

>> Home treatment with BEMER loan set

>> Permanent home use with own BEMER set
